

CE IPX6

Wall Washer Series

1. Environmentally Friendly-Cool light with pure color and bright lighting, no heavy-metal element and no pollution.
2. Smart Technology-The intellectual circuit controller inside will adjust the brightness automatically.
3. Solid State-Long lifetime, short time to start up, durable structure.
4. Energy Saving-The LED-based lighting is 8 to 10 times the ordinary bulb.
5. Wide Applications-Signs, department stores, coffee shops, banks, exhibitions, restaurants, and galleries, etc..

Model		e8D00110
Input Power	Voltage	AC100V~240V / 50Hz-60Hz.
	Wattage	3~5 W
Style		3 Lamps
Light Source	Style	High Bright LED
	Colors	White Green
Body	Material	UV resist Enhanced Engineering Plastics
	Color	White Black
	Dimensions	525x375x100mm
Weight		3kg
Control System		Light Sensor
LED Driver		Overload, Overheating & Short Circuit Protection
Operating Temperature		-20 to 60 C
