

CE, RoHS, Energy Star, IP65

elumin8 is pleased to introduce the new LED Low Bay D-Miner fixture. A new, energy-saving product that utilizes high-power LED's as a light source. Power supply :100-240V AC.

- A conventional "green" lighting source, low energy-consumption and a long lifespan, no ultraviolet light, no infrared rays, no heat and no radiation produced.
- Typically a fixture of this kind would use 60 to 100 watt lamps. However we have replaced these high energy consuming lamps with state of the art, low energy consuming eco friendly LED technology.
- An ideal power saving solution for replacing existing (or new installs) in factories, warehouses etc.

Model	LED Pendant Light Series
Product Name	Miner's Lamp
Light source	80x1w White LED
Input Voltage	100-240 V AC
Beam Angle	76
Operating Current	350mA
Color Temperature	6000K/3500K
Wattage	100W
Luminous Flux	7093.7
IP Rating	IP65
Certificate	UL/CE
Material	6063 AL
